

Jack Kane LPs with Maynard Ferguson

JACK KANE, JACK KANE SALUTES THE COMICS (U.S. PRESSING - STEREO) -- Dot DLP 25143

Maynard Ferguson historian Kevin Seeley has done a lot of research on rare performances by MF, and he is convinced that MF plays on this LP, based on a statement on a television show in 1958. Jack Kane mentioned on The Jack Kane Show in Canada on 10/16/58 that he had just gotten back from New York where he had recorded two LPs with MF. Since the release of this LP dates to 1959, I'm convinced, too, that MF is on this LP. There are a couple of passages that almost certainly are him playing in the upper register. Kane was a fellow Canadian, and thus it would have been natural for him to want MF performing on this LP. This is a relatively rare LP. It's Kane and his orchestra playing the theme songs from several major comedians, such as Jackie Gleason, Bob Hope, Jack Benny, Steve Allen, the Marx Brothers, etc.

NO COPIES AVAILABLE AT THIS TIME.

JACK KANE, JACK KANE SALUTES THE COMICS (CANADIAN PRESSING - MONO) -- Dot DLP 3143

This is the Canadian MONO version of the LP above.

COPY #1. THIS IS A COVER ONLY. The LP that came in this cover was broken in shipping to me from Canada. But the good news is that this is an absolutely wonderful cover. It's clean and nice, has zero damage, and just a little bit of toning on the back. It's NMINT. Although it's just the cover, this one is so nice that I'm going to sell the cover alone in case someone wants to replace a lesser cover on their own copy. \$5.00
